

# Switching the Camera in Schoology and Flipgrid

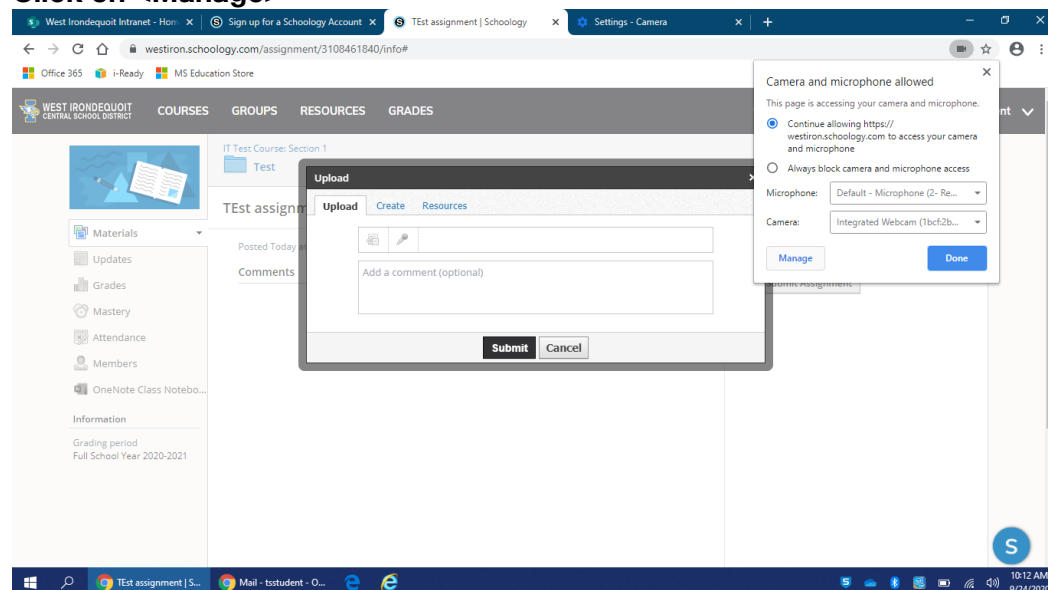

Both Schoology and Flipgrid often default to inconvenient cameras as they run through a web browser. Below are instructions to switch cameras using the Chrome web browser.

## Schoology

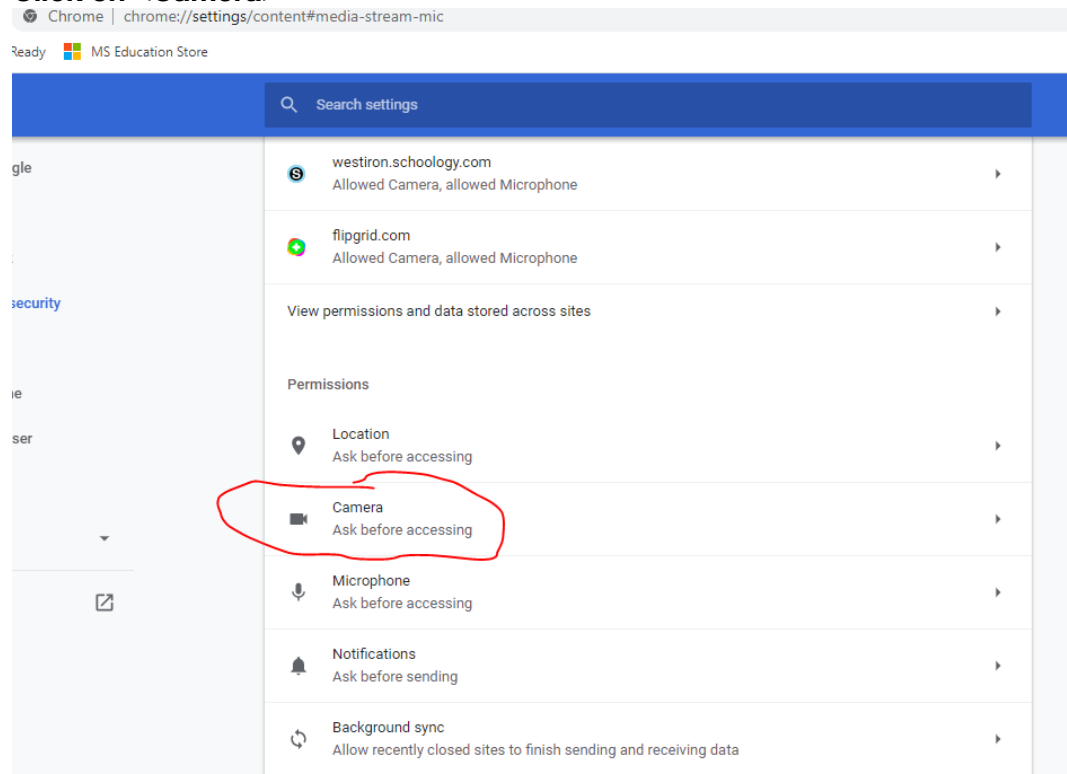

Click on the small camera icon on the right side of the address bar in Schoology

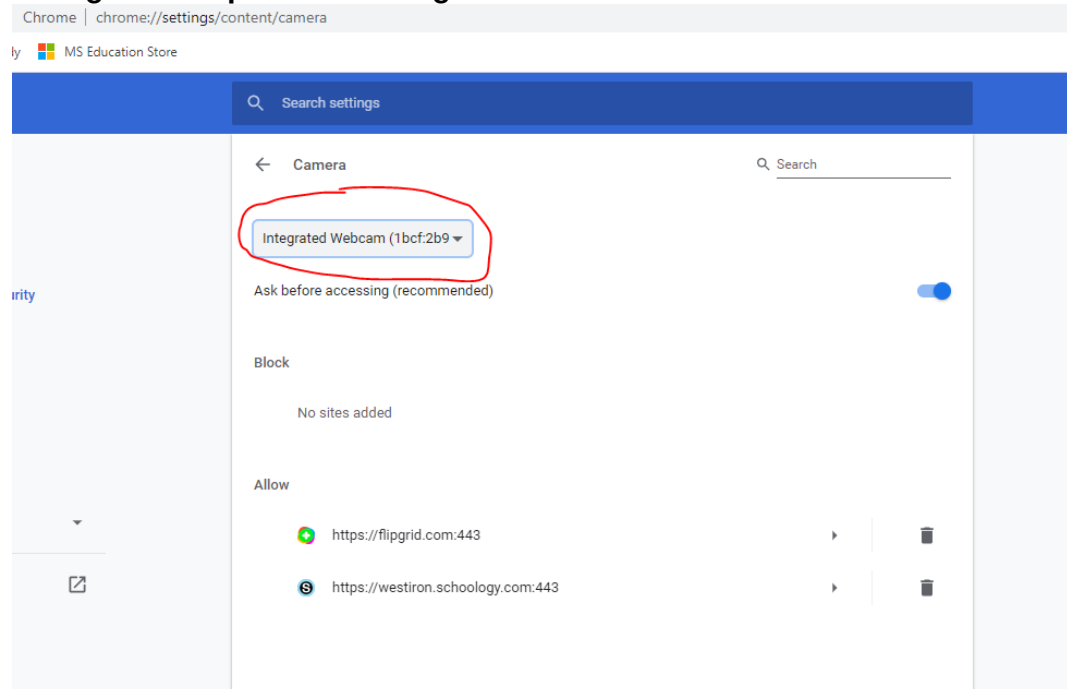

Click on <Manage>

## Click on <Camera>

## Change the drop-down to Integrated Webcam

Go back to Schoology and record your video.

# Flipgrid

Flipgrid offers an easy way to switch/flip the camera, shown below.
